LETTER FROM THE EDITOR CHRIS TORRES

Here at CalChess, we celebrate all things California chess. From local clubs that meet weekly; to our weekend warriors who compete in hotel ballrooms, to national events and even tournaments that attract the strongest players in the world. All these goings-on are part of what makes Northern California a great place to live for chess players.

The best thing about being involved with CalChess is the opportunity to help build the local chess community, foster a sense of chess pride within Northern California, and make meaningful connections with other chess players who visit our state. CalChess plugs you into the power of Northern California chess community and gives you the chance to shine!

The CalChess Journal is the "glue" that hold our chess community together. All organizations, clubs, coaches and players are encouraged to submit articles for publication. Without your articles the meaningfulness of our magazine declines and less community members read your stories which are the stories of California's chess. So, enjoy this issue, join CalChess and consider sending your stories to The CalChess Journal. Together we will make Northern California the envy of the chess world!

ABOUT THE COVER

On the cover of this month's issue is a picture of Anushka and Samyak Patil with GM Magnus Carlsen at the Meltwater Finals in San Francisco, November 2022.

**CALIFORNIA'S
CHESS TALENTS!**
EPISODE #4
**WGM ROCHELLE
WU**
BY FM KEVIN PAN

Rochelle Wu is one of the most accomplished Californian juniors, winning gold on numerous occasions on the international stage and recently competing in the 2022 U.S. Women's Championship. Starting chess at the age of six, she rose to prominence in 2016 by winning the World Cadet Chess Championship. In 2019 at the age of 12, she became the youngest player ever to represent the U.S. in the Women's Olympiad team tournament, competing alongside the likes of IM Yip and WGM Foisor. Recently, Rochelle achieved her final norm for the WGM title. How does she handle all the pressure and balance her chess career with numerous other activities? I had the lucky opportunity to speak with Rochelle and gain valuable insight and advice.

[KP]: Hello, everyone. Today we have Women's Grandmaster Rochelle Wu with us today. Rochelle, congratulations on recently achieving your WGM title. How does it feel to hold one of the highest titles in chess?

[RW]: It feels pretty unreal, to be honest. Like when I first started, I had no idea I was going to be here, so it's like, it's a pretty cool experience.

[KP]: You achieved not only the WGM title but also the International Chess Federation (FIDE) Master title in 2022. You accomplished so much during the tail end of the pandemic while most chess players out there were unable to play over-the-board events. Can you share your journey? How were you able to keep playing high level tournaments during the pandemic?

[RW]: I think that when I was younger, I definitely played a lot more tournaments. I saw you at a bunch of tournaments, too, but I was basically playing tournaments like every single week. And the pandemic kind of cut down on how often I was able to play tournaments, too. But I think it was like a blessing in disguise because playing a bunch of tournaments honestly kind of wore me out. So, I'm definitely glad that I was not able to play as much. We definitely had to fly a lot more than usual. And I don't remember the last time I played a tournament in California.

We always just had to go out of state.

[KP]: So, you mentioned playing so many tournaments when you're younger. Now let's talk about how you got started. I noticed you started playing in 2012 when you were 6, and in four years you were rated over 2000. You also won gold in the World Cadet tournament that year. In those four years, you played around 200 tournaments, or almost one a week. Did you have any special tricks to keep yourself energized and focused?

[RW]: Honestly, just bring a milkshake for each game. It was definitely tiring, but I feel like as long as you have friends and people to socialize with during tournaments, it's not that bad. You kind of just have to find something that motivates you and excites you to keep going.

[KP]: Thinking 24/7 about chess doesn't really help, right? So, you have to, like, balance yourself.

[RW]: Yeah.

[KP]: Okay, cool. cool. So, was there any particular moment or any tournament that you felt frustrated in your journey and how did you get over it? Was there any particular moment, or any tournament, that you felt frustrated or challenged? How did you get over it?

[RW]: There were probably many tournaments that made me feel that way. Like, there's this one time I played in the US Cadets. I think it was in 2017 or 2018, and I got 0.5 out of 7. It was pretty discouraging, but I feel like you just have to change your viewpoint on tournaments. Like nowadays, whenever I have a bad result, I kind of just view it as a learning experience, like it happens for a reason - I wasn't prepared, or I should have studied more. It reminds me that I have a lot to learn and honestly, I don't view it as a bad thing anymore.

[KP]: So now moving on to a few more general questions. So, what part of chess do you like the most?

[RW]: Winning.

[KP]: Relatable. Is there anything you dislike about chess - losing?

[RW]: I dislike losing. Getting bad positions out of the opening. Not having anyone to hang out with during tournaments. Just like in a not ideal tournament situation, you know?

[KP]:. Yeah. So which chess players do you admire the most? And what do you like about them?

[RW]: Honestly, I admire, like, a lot of my friends who play chess. Especially like women in the chess world. They are people that I can

look up to and go to for guidance and advice. Not even in chess, but also in life too, because a lot of them, like they balance their school and chess life really well. And it's just really inspirational to see.

[KP]: Okay. So, returning to the 2016 world, because that tournament where you won gold. How did you feel winning that tournament? How did it influence you on and off the board? Like you were talking about the lessons outside of chess. Did you have any special memories of that event as well?

[RW]: Yeah, that event was definitely one of my favorite chess moments of all time. I remember after the last game; it didn't really sink in yet until like so many people told me congratulations. And I was just like I was in shock because my dad expected me to get last place or something. So, it was just like an unreal moment. It felt like a really special day. It's like your birthday times ten, you know?

[KP]: Did that inspire you to take chess even more seriously?

[RW]: A little, but I was like ten at the time, so I didn't really know what it meant for the future. Honestly, up until then, I kind of saw chess as more of just like one of my side hobbies. I also did some other extracurriculars. I didn't view

chess that seriously. I know I'm better at it than I was at swimming or whatever, but honestly. I think it kind of put a little bit more pressure on me, which did not feel great. But I mean, I don't really regret anything.

[KP]: All right. So, another special tournament you took part in was the 2019 Women's Team Olympiad tournament, where you were actually the youngest player ever to represent the US. So how was that experience and how did the unique team atmosphere feel?

[RW]: Oh, actually, it felt really interesting because I remember having my birthday during the event. It was really interesting to have an actual team dynamic because, you know, like the US amateur team events. I feel like there you're not really as connected with your team. It's just like you're playing side by side. But like in this kind of big event, you're eating dinner together. you're hanging out on the rest day; you're always preparing and giving each other pep talks and stuff. Like everything was really special. It's just a really unique environment.

[KP]: Since then, you have obviously continued to be very successful. You received the WIM title in 2019 and as I mentioned, the FM & WGM title in 2022. You also recently competed in the US Women's Championship. Was there a game or two that you particularly

liked in your entire chess journey that you remember?

[RW]: Honestly, I don't know about this one because my memory is not great. I know that there were definitely some games that stood out to me or have haunted me over the years. Like, there's nothing that I'm like, oh my God, I played so well in this game. I'm going to remember it forever, you know?

[KP]: Were there any games that you needed to win for a norm, or the title and you actually managed to win?

[RW]: The last game when I was getting my last WGM title, I remember I was so nervous for it before the game because I was like, Oh my God, if I don't win, Then I came here for nothing, and I'm literally never going to get it. So, I guess I put a lot of pressure on myself. But I, I actually think I played really well that game and I guess everything worked out. It was a pretty nice game in my opinion.

[KP]: So how does what you learn from chess apply to your life outside of chess?

[RW]: It definitely makes me more of a social person. One experience I had in chess was going to the Kasparov chess camps where you have to present six of your own games to the best player that ever lived. It was really

nerve-racking for me and like, I just wanted it to be over as soon as possible because I was just outside of my comfort zone. But it definitely helped me, like in school, because now I don't really get nervous talking or giving presentations standing in front of the whole class. I don't care if it makes me look dumb or whatever, because, you know, this experience has humbled me and it's like, what worse could happen, you know?

[KP]: So, I think we've already talked a little bit about women in chess. Obviously, you're a very strong player regardless of gender, but how do you think the chess community should encourage more women to start playing and possibly replicate your level of success? And if a young girl asks why she should play chess, what would your answer be?

[RW]: Honestly, I feel like they could add more female prizes to tournaments. I mean, it's kind of a male dominated sport. It's no secret that most women are lower rated in general compared to men. So, I feel like there could be more prizes targeted for women. And I think that, honestly, tournaments can be kinder to women as a whole, because the ratio between men and women is pretty bad and it can be really intimidating. So, I think as soon as the ratio becomes closer, then I think that it would definitely just make women more comfortable in playing halls in

general. And the second question was how would I encourage young girls to start playing chess?

[KP]: Yes, how would you encourage them and what would you say to them?

[RW]: I would tell them that it's pretty good for college. When you're doing your college apps, I think that it's a pretty unique hobby. It's not something that a lot of people in schools really pursue. And I think it's just a really nice way to meet new friends and live a second life, you know?

[KP]: Yeah. Okay. So final question. Let's look a little bit into the future. So, you're a WGM now. What's your next goal in chess? Do you plan to continue playing professionally after you graduate or when you become an adult?

[RW]: I honestly think that my goal right now is just to win the U.S. Juniors. I also want to qualify for the Olympiad and keep playing in the U.S. championship. And I actually plan on playing chess after I graduate. I'm just not sure if I want to do it professionally or as a hobby.

[KP]: Thank you, Rochelle, for giving all this advice and very interesting insight in your career. Thanks.

[RW]: You're welcome. Thanks.

2016 World Cadets Chess Championship Team USA. WGM Rochelle Wu is the 5th one from the left on the 2nd row; FM Kevin Pan is the 2nd from the left on the 2nd row.

We are always looking for volunteer coaches who are willing to donate their time and bring chess to another child in the world.

Eligibility:

- High school students*
 - Experienced tournament player rated > 1600*
 - Experience with teaching / coaching*
- Volunteer hour will be issued. Possibility to receive President's Volunteer Service Award at year end.*

THE CHESS FILES

The Answers are Out There

By James Eade
Eadefoundation.org

What's the best time control?

The answer is that it depends. Traditionalists will tell you that slow time controls are the best. Is that true? There was a time that people played without clocks. You needed strong glutes as well as patience to play in those days.

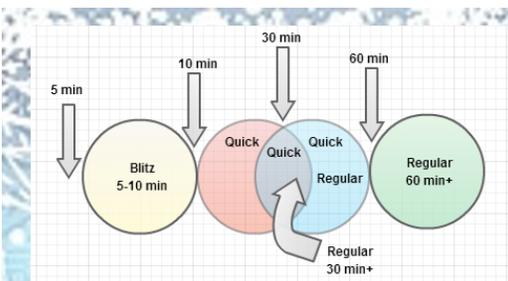

When I first started playing tournament chess the time control was 40 moves in 2 ½ hours and subsequent time controls were also fairly slow. Games could last quite a long time and adjournments were commonplace. Some still held on to that time control as the best.

There was some commotion when it was accelerated to 40 moves in 2 hours! Can you imagine the complaints from those who were accustomed to one time control and were faced with change! Even those games were fairly long and only the most dedicated of chess fans could watch them in their entirety.

Blitz was always an alternative. Typically, each side would get five minutes for the entire game. If your flag fell, you lost. It was not considered serious chess except by those who were very good at it! The onset of digital clocks changed blitz to a large degree. Three minutes plus delays or increments became the norm.

Tournament chess time controls was still considered the only valid way of determining true chess strength by most chess fans. Blitz and Rapid ratings were more for fun and bragging rights. A funny thing happened to that perception.

The World Championship matches were determined by a series of game at the old time-controls, but if an outcome was undetermined, rapid, and even blitz games would enter into the picture. It used to be that the champion had draw odds. If you could not defeat the champion under the old time-controls, the champion retained the title. Some protested this change, but it became the law of the land despite these howls of complaint.

THE EADE FOUNDATION

Then a World Champion decided not to defend his title. The reasoning was that the old system needed to be modified. Games needed to be contested at different time controls went the argument. A series of matches needed to be played at various time controls.

No one wanted to watch a long series of games that were likely to end in a draw went the rationale. Faster time controls were far more likely to result in decisive games. People would watch those games, and eyeballs translated into marketing opportunities.

This would lead to more corporate sponsorship because people would have a viewer base large enough to justify marketing campaigns. Magnus Carlsen has demonstrated that this is plausible. Whether it is sustainable is another matter entirely, but it has been successful in the near term at least.

Will the chess world accept these types of matches to determine the best chess players in the world? Time will tell, but popularizing the game seems to be the prime directive. Faster time controls seem to be more popular. The competition is the thing. Leave the best moves for the computers to find.

The Eade Foundation wants to enhance chess literacy and chess excellence. Chess literacy means the ability to read and write chess notation. Reading notation opens the vast world of chess literature to the reader. Writing notation allows you to preserve your games for later study and to receive advice and counsel from other more advanced players. Chess excellence advances the state of the art and inspires others to achieve excellence on their own. The Foundation was established shortly after the death of Arthur Eade, who taught chess to James Eade. The Foundation gives a \$1,000 donation in his name to the best essay to earn the “Arthur Award.”

The Eade Foundation will provide chess sets and boards to organizations that cannot otherwise afford them. It considers chess to be a social good. Introducing or expanding chess literacy and chess excellence will lead to incremental improvement in any society. The Eade Foundation has provided chess sets and boards to organizations throughout the world, from Uganda to Nicaragua. If you are interested in supporting or contacting the Foundation, please send an email to eadefoundation@gmail.com

MELTWATER CHAMPIONS CHESS TOUR FINALS IN SAN FRANCISCO BY CHRIS TORRES

Chess fans around the globe were excited to watch some of our games biggest stars competing in the Meltwater Champions Chess Tour Finals in San Francisco. The prestigious event took place on November 14-20, 2022. The tournament was structured as a round-robin featuring eight elite chess competitors (GM Magnus Carlsen, GM Jan-Krzysztof Duda, GM Arjun Erigaisi, GM Anish Giri, GM Liem Quang Le, GM Shakhriyar Mamedyarov, GM Rameshbabu "Pragg" Praggnanandhaa and GM Wesley So). Each of the seven rounds consisted of four-game rapid (15 minutes with a 10-second increment) matches.

The San Francisco Bay Area is no stranger to top level chess. FM James Eade organized a famous super tournament in San Francisco in 1995 and the "City by the Bay" has several active chess clubs including one that is the oldest continuously running chess club in the United States. However, Meltwater Champions Chess Tour brings a different kind of energy by treating chess as an e-sport and its rapid paced structure captured the interest of a new generation of chess fans who enjoy watching chess streamers. Because of this

e-sport approach, players in the Meltwater Champions Chess Tour compete online while seated in state-of-the-art gaming chairs. Carlsen, Giri, Praggnanandhaa, and So played their games live from the San Francisco Ferry Building, while Duda, Erigaisi, Le, and Mamedyarov played remotely from their homes.

Day 1 started with a much-anticipated clash between Magnus Carlsen and Wesley So. After two draws, Magnus scored a win in their third game. In the other opening matches, Duda defeated Erigaisi, Mamedyarov won against Pragg and Giri defeated Le Quang in their blitz tiebreaker. It's worth noting that a win after a tiebreak yields just two points, with one going to the loser.

Standings After Day 1

#	Name	Rtg	Score
1-3.	Jan-Krzysztof Duda	2798	3
1-3.	Magnus Carlsen	2848	3
1-3.	Shakhriyar Mamedyarov	2756	3
4	Anish Giri	2732	2
5	Liem Quang Liem	2775	1
6-8.	Arjun Erigaisi	2733	0
6-8.	Wesley So	2774	0
6-8.	Praggnanandhaa R.	2750	0

Day 2 saw Magnus Carlsen and Jan-Krzysztof Duda again win their matches over Erigaisi and Mamedyarov without needing tiebreaks. Anish Giri won his match over Pragg but again needed the blitz playoff to complete the task. Liem Quang Le dominated Wesley So. Afterwards, So stated, "He's just very strong. He played some very good moves. I probably should have won game one, but other than

that, I think Liem played a near-perfect match."

Standings After Day 2

#	Name	Rtg	Score
1-2.	Jan-Krzysztof Duda	2798	6
1-2.	Magnus Carlsen	2848	6
3-4.	Anish Giri	2732	4
3-4.	Le Quang Liem	2775	4
5	Shakhriyar Mamedyarov	2756	3
6	Praggnanandhaa R.	2750	1
7-8.	Wesley So	2774	0
7-8.	Arjun Erigaisi	2733	0

♖ff8#]

[0:1]

Day 3: Magnus Carlsen
continued his winning ways by
making easy work of Shakhriyar
Mamedyarov. However, it was Jan-
Krzysztof Duda who stole the
spotlight on the third day of
competition by also maintaining
his perfect 9/9 score by way of
defeating Anish Giri with a
breathtaking brilliancy. Duda
spoke of his modern brilliance in
the post game interview stating
that “I’m very happy, of course. It’s
not every day you get to
checkmate your opponent. I mean,
not really checkmate. In a way, I
am disappointed that there was no

checkmate on the board, but the combination was so beautiful, so atypical, but also with checks. It's something extraordinary to me. I always could appreciate the beauty in chess, and it's very nice to be on the good side of things!"

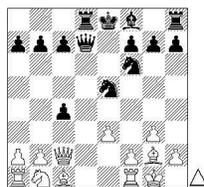

Praggnanandhaa bounced back to form by defeating Liem Quang Le with three straight victories. Finally, Wesley So defeated Arjun Erigaisi.

Standings After Day 3

#	Name	Rtg	Score

12. e3 h5 Giri is threatening to trap White's bishop by playing h4 next and then, after white plays Be5, pawn to f6! **13. c4** Duda is unfazed and strikes back at the center threatening to open lines of attack against his opponent's dangerously placed king.

13... h4 Threatening the bishop which, again, will get trapped on e5 after pawn f7-f6. **14. ♗e5** Duda plays Be5 anyways.

14... f6 15. cxd5 fxe5 16. ♗b5 ♗f8?! Giri steps out of check to keep his light bishop on the board to support further pawn advances on the kingside. 16... Bd7 was definitely playable and perhaps even preferable.

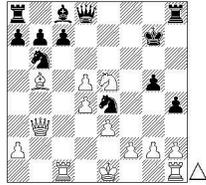

[16... ♗d7!? 17. ♘xe5 ♘d6 18. ♗xd7 ♘xd7 19. e4 h3 20. gxh3 ♘f6 21. O-O ♘fxe4 22. ♗c2 g4 23. hxg4 ♗g5 24. ♖fe1 O-O 25. f3 ♘d2 26. h4 ♗f4 27. ♗g6 ♗h8 28. ♗h5 ♗g8 29. ♗g6 Is a draw by repetition.]

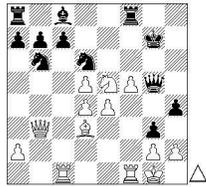

17. ♘xe5 Duda is down in material but has nice advantages in king safety, central space, and force. **17... ♗g7?** Giri plays inaccurately by trying to hard to hang onto his material advantage. Better is playing an immediate Qxd5 allowing white to trade his dangerous knight for black's rook on h8.

[17... ♗xd5 18. ♘g6 ♗g7 19. ♘xh8 ♗xh8 20. ♖xc7 ♗e6 21. ♗xd5 ♘xd5 Is a key continuation which needs close

inspection.]

18. ♙d3 ♜d6 19. O-O White has given black a laundry list of problems for the cost of a little material. 19... g4 Giri continues on with pawn to g4 which, as you recall, is why he did not block check with his light bishop back on move 16. 20. f4 Threatening f5. 20... ♜f8 This stops white's pawn from advancing to f5. En Passant was not playable as it would allow white's rooks access down the f-file to attack black's king 21. e4 To support pawn to f5. 21... g3 Giri does not have enough force with access to the quadrant containing white's king for this kind of flank attack to work. 22. f5 ♞g5 The best attacking move that Giri could play but his attack just isn't strong enough.

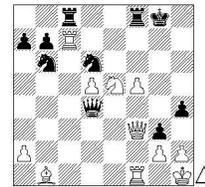

23. ♜xc7 ♝g8 24. ♙b1 An incredible move which gives Duda's Queen access to f3.

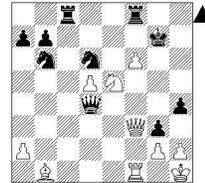

24... ♞d2 25. ♞f3 ♙xf5 Giri gives his extra piece back to allow the rook on a8 to finally enter the game. 26. exf5 ♞xd4 27. ♝h1 ♜ac8 Giri gets his rook into play but it leads to a mate in 11! Still better than 27... Qxe5 which would have black checkmated on move 30.

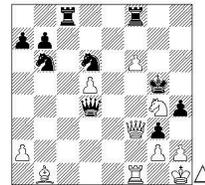

[27... ♞xe5 28. ♞g4 ♝h8 29. ♞h5 ♝g8 30. ♞h7\#]

28. ♞g7 Hats off to Duda for spotting this in the heat of battle. 28... ♝xg7 29. f6

29... ♝h6 30. ♜g4 ♝g5

31. ♞f5 Amazing mastery on display here. 31... ♜xf5 32. ♜xf5 ♝g6 33. ♙e5 Giri resigns which sadly deprives Duda of the opportunity to finish one of the greatest mating combinations ever.

[...]

[33... ♜c2 34. ♙xc2 ♞e4 35. ♙xe4 ♝f7 36. ♙e7 ♝g8 37. ♜h6 ♝h8 38. ♜h7\#]

[1:0]

Day 4 of the Meltwater Champions Chess Tour Finals Magnus Carlsen distanced himself from the field. After defeating Anish Giri 3-0 Carlsen sported an impressive perfect 12 out of a possible 12 score. Jan-Krzysztof Duda was unable to keep up, losing his first tour finals match to Le Quang Liem. In the other matches, Arjun Erigaisi won for the first time over Shakhriyar Mamedyarov and Wesley So came out victorious over Pragg.

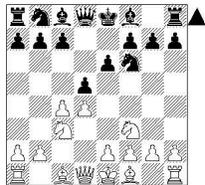

Standings After Day 4

 $\text{\textcircled{e}}$ h7 27. $\text{\textcircled{f}}$ f1 $\text{\textcircled{f}}$ e2? At first and even
 second glance this looks very strong but

Mamedyarov has fallen into a trap. A
 better move would have been Rg6.

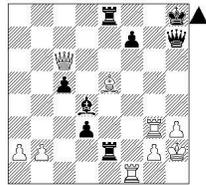

[27... $\text{\textcircled{f}}$ g6 28. $\text{\textcircled{c}}$ g5 f6 Is roughly
 equal.]

28. ♖a5! Erigaisi jumps on his opponent's mistake. 28... ♜xc2? This makes matters worse. Retreating the rook back to e6 was black's best hope.

[28... ♜2e6 29. ♖xc5 ♖e4 30. ♔d2 ♜g6 31. ♜e1 ♖c6 White needs to be accurate here. 32. ♖xc6 ♜xe1 33. ♔f2 ♜xc6 34. ♔xe1 And with accurate play white maintains the advantage.]

29. ♖xa7 ♔h8 30. ♖xb7 d3 The black pawn on d3 is getting dangerously close to its goal. 31. ♔h2 ♔d4 32. ♖c6 ♜ce2 33. ♔e5 The first move of a mate in 3. Mamedyarov recognises this and resigns.

[...]

[33... ♖g7 34. ♖h6 ♔g8 35. ♖xg7#]

[1:0]

Day 5: GM Magnus Carlsen won his fifth match in a row at the Meltwater Champions Chess Tour Finals. However, his hopes for a perfect score were shattered when defeating GM Le Quang Liem required a blitz playoff and an Armageddon tiebreak game. GM Le Quang Liem thus took one match point away from Carlsen, who still maintained a commanding lead over the rest of the field.

In fact, Magnus Carlsen's lead over Duda grew by another point as the Polish GM lost an exciting match against Pragg who only clinched victory by holding a draw as black in the Armageddon tiebreak game. Wesley So jumped to third in the standings by beating Shakhriyar Mamedyarov while Arjun Erigaisi defeated Anish Giri.

Standings After Day 5

#	Name	Rtg	Score
1	Magnus Carlsen	2848	14
2	Jan-Krzysztof Duda	2798	10
3	Wesley So	2774	9

38... ♞f7 39. ♙e1

39... ♞e6 40. ♜xe6 Mamedyarov resigns
 after being outplayed in artistic fashion.

[1:0]

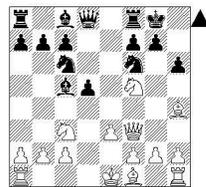

Day 6: Magnus Carlsen won his sixth straight match of the event over Pragg and, in doing so, clinched the the Meltwater Champions Chess Tour Finals a full day before the end of the event. Wesley So continued his ascent in the standings by beating Duda and claiming second place for himself. Also climbing the standings was Arjun Erigaisi who defeated Le Quang Liem to move into fourth place. Shakhriyar Mamedyarov ended his losing streak by defeating the struggling but always amicable Anish Giri.

[1:0]

Day 7: Magnus Carlsen finished the Meltwater Champions Chess Tour Finals by winning his seventh straight and final match of the event over Jan-Krzysztof Duda. Wesley So lost his match against Anish Giri which came down to an exciting Armageddon tie breaking game. In a match featuring two of the brightest Indian chess stars, Praggnanandhaa R. beat Arjun Erigasi after Erigasi fell into an opening trap in their fourth game. Finally, Le Quang Liem defeated Shakhriyar Mamedyarov.

When the dust settled, Magnus Carlsen won the Meltwater Champions Chess Tour Finals and the \$50,000 "bonus" first prize in San Francisco, which added to his tour totals and meant the World Champion took home \$242,400 in total Tour earnings. If the Champions Chess Tour had been rated like traditional classical over the board chess tournaments, Carlsen's incredible 20/21 San Francisco display would have been categorized as a 2900 performance rating. However, as this hybrid format gains greater acceptance with the old guard, his achievement in San Francisco will go down in history as one of his best showings in his illustrious career.

Standings After Day 7 - Final

#	Name	Rtg	Score	Earnings
1	Magnus Carlsen	2848	20	\$50,000
2	Wesley So	2774	13	\$32,500

Everyone was all smiles at the 2022 Meltwater Champions Chess Tour Finals in San Francisco, California.

MSJE WINS BIG IN THE STATES!

BY FM KEVIN PAN

The CalChess Grade Level Championship returned fully in person for the first time since 2019. Held over the December 17-18 weekend at the Sonesta Silicon Valley, 117 players competed for the title in the elementary school varsity sections. MSJE fielded 31 players, many of whom were playing their first tournament. This new generation of stars exceeded expectations and continued the storied success of MSJE chess. In the kindergarten section, 5 entirely new players led by Chun-Yen Lee (2.5/5), Saanvi Bala (2/5), and Jeffrey Wang (1.5/5) won the team championship. The 1st grade section saw the revival of the MSJE - Weibel rivalry. Again, three new players - Byron Li (2.5/5), Akshara Shanker (2/5), and Rishaan Arora (1/5) fought valiantly and managed to tie for first with Weibel. The most MSJE players competed in the 3rd grade section, dominating and winning first by a margin of two points. Notably, veteran MSJE player Luke Hong placed third individually with 4/5, falling just shy of the championship. The most impressive individual performance came from Pranavi Pramod in the 4th grade section. She won all 6 of her games and led the team to a second-place finish. Here is one of the best games from Pranavi's championship performance.

Caption: 4th grader Pranavi Pramod hoisting the trophy

The 5th grade section was a tight competition between MSJE and Weibel. Led by Arthur Wang (3.5/5), the team squeezed out the championship with just a 0.5-point margin.

Caption: MSJE Team with trophies from State Grade Level Champions hip

Caption: Coaches and players hard at work solving a puzzle

MSJE continued its tradition of hosting a team room to teach and encourage players between rounds. Current MSJE coaches Annapoorni Meyappian, Aghilan Nachiappan, Aditya Artula, Jason Liu, and Jolene Liu stayed for all six rounds, reviewing games and offering valuable advice. They were even aided by MSJE chess alumni, national masters Christopher Pan and Jeffrey Wei, who provided support with their years of teaching experience. Being the first in-person team event MSJE has competed in since the start of the pandemic, the results were outstanding. All our new players were eager to learn and compete, and the veterans performed magnificently. All in all, MSJE's performance at the grade-level championships was extremely promising. I'm sure all these players will continue growing and win even more championships in future events.

TURNING BACK THE CLOCK —

Garry Kasparov at Stanford University

by
Eric Schiller

Garry Kasparov with Jordy Mont-Reynaud, Philip Wang, Vinay Bhat, Alex Karnazes and Zachary Karnazes. Kasparov spent an hour answering questions at Stanford.

Photo by Eric Schiller

Garry Kasparov gave a Presidential lecture at Stanford University on April 22nd. His address drew an overflow crowd in the 700-seat hall. The fire marshalls had to intervene several times in an attempt to control the crowd. He started his day meeting with Chess City Magazine publisher Avery Cardoza and editor Eric Schiller. He addressed Stanford's Slavic department and lunched with faculty members and a few chessplayers including Stanford Chess Club President, National Master Adrian Keatinge-Clay. Then he entertained the chess club for an hour, discussing many issues in contemporary chess. We'll get to that later. Let's follow Kasparov's afternoon schedule.

Stanford's chess team finished third at the Pan American Intercollegiate, but beat champion UMBC on their home turf in a revenge match. With Phillip Wang joining the team next year, and other stars expressing interest, the team has grand aspirations. They are thrilled that Stanford is con-

sidering making chess a varsity sport! Left to right: Adrian Keatinge-Clay, Erik Stuart, Garry Kasparov, Etan Ilfeld, Mike Aigner.

After the Kasparov chat, the players enjoyed an outdoor blitz tournament on the beautiful Stanford campus. Vinay took both games from me enroute to a convincing tournament win. It was a very strong tournament and I finished among the prize winners. Not bad for the "old man" in this prodigy filled event. Palo Alto has an abundance of chess activities, on and off campus.

Kasparov's address covered many topics, including the famous match against Deeper Blue, where he continues to voice suspicions about some of the moves, particularly the famous conclusion to game two. He reissued his challenge to any machine, but stipulates that this time the match must be played under fair rules, not exhibition conditions. He insists that Deeper Blue, now dismantled, never took its "drug test". Only by providing the uncensored print-

outs of the critical moments will IBM prove its slim match victory was an honest one. His main focus, however, was on the status of chess as a sport. He gave detailed evidence to support his contention that the pressure involved in a chess tournament, over a period of consecutive days or weeks, has physical effects which qualify chess as a bona fide sport.

Kasparov clearly scored some points! The members of the distinguished panel of academics readily agreed with him. Stanford Cardinal head football coach Troy Willingham may have surprised the audience when he agreed that chess should be considered as a varsity sport. Recognition by a prestigious athletic department, and Stanford is one of the best, would go a long way to help establishing chess at all college campuses. Willingham was clearly impressed with Kasparov's performance, and was an eager participant in this panel.
